EcoGreen Group of Silicon Valley

Creating Opportunities for Sustainability and Clean Technologies

Mission

EcoGreen Group creates professional and entrepreneurial opportunities in sustainability and clean technologies through education, professional development, industry collaboration, and networking.

The EcoGreen Group fulfills this mission through our

- online blog,
- social media,
- collaborative workspaces,
- volunteer opportunities,
- member projects,
- weekly and monthly meetings,
- and speaker events on specific sustainability topics.

Upcoming Lighting Classes + An Evening Lecture

Nov
7

[High Dynamic Range Imaging for Assessing Human Visual Comfort and Evaluating Energy Efficiency Opportunities](#)

Tue November 7, 2017

San Francisco - Pacific Energy Center

This class introduces High-Dynamic-Range Photography for use during design, post-occupancy and operations phases in commercial buildings. Lectures and interactive, hands-on exercises cover equipment calibration and visualization as well as analyzing your results for visual comfort and glare. Equipment will be provided if you do not bring your own.

Creating Opportunities for Sustainability and Clean Technologies

PG&E Energy Education Classes

Nov
28

[Window Selection for New and Existing Homes](#)

Tue November 28, 2017

San Francisco - Pacific Energy Center

Learn how to evaluate and select appropriate windows for a given California climate zone in order to reduce heating and cooling costs and increase occupant thermal comfort.

Topics include: NFRC labels, low-E and spectrally-selective coatings, advanced frame and spacer technology, and how to properly flash windows during installation.

Creating Opportunities for Sustainability and Clean Technologies

OPTIMIZE YOUR EV CHARGING

November 15th from 6:00 - 8:00pm

Google Launchpad, [301 Howard Street](#)
San Francisco, CA 94105

Charging our electric vehicles has gotten a lot easier, thanks to intelligence being added to the charging stations, and to our cars. Our speakers this month will cover both hardware and software solutions that will make this easier, and better for our electric grid.

Featured speaker: Satyajit Patwardhan
Founder, ConnectMyEV
