Tim Strohane: Drought, Water Law, and the Origins of California's Central Valley Project

How did the California Water Wars start?  
How did the evolution of water law create the struggles we face today?  
How can we fix that mess?

Albany author, Tim Strohane, takes on these questions in his new book: Drought, Water Law, and the Origins of California's Central Valley Project.

---

This book is an account of how water rights were designed as a key part of the state's largest public water system, the Central Valley Project. Along sixty miles of the San Joaquin River, from Gustine to Mendota, four corporate entities called "exchange contractors" retain paramount water rights to the river. Their rights descend
