Self-Introductions

EcoGreen Group of Silicon Valley

Creating Opportunities for Sustainability and Clean Technologies

Mission

EcoGreen Group creates professional and entrepreneurial opportunities in sustainability and clean technologies through education, professional development, industry collaboration, and networking.

The EcoGreen Group fulfills this mission through our

- online blog,
- social media,
- collaborative workspaces,
- volunteer opportunities,
- member projects,
- weekly and monthly meetings,
- and speaker events on specific sustainability topics.

What might be in your drinking water might surprise you

Tony Green works as a Water Treatment Sales Engineer for a sustainability focused water treatment company, helping clients reduce their water consumption and optimize their energy use in a sustainable manner. He enjoys using his technical background in helping people solve problems in applications that will make the world a better place. His career has included roles in application or project engineering and sales/marketing in alternative energy, environmental and utility industries.
