Creating Opportunities for Sustainability and Clean Technologies

## Mission

EcoGreen Group creates professional and entrepreneurial opportunities in sustainability and clean technologies through education, professional development, industry collaboration, and networking.

The EcoGreen Group fulfills this mission through our

- online blog,
- social media,
- collaborative workspaces,
- volunteer opportunities,
- member projects,
- weekly and monthly meetings,
- and speaker events on specific sustainability topics.

**Chris Novak** +1  
President, Organizer, Event Host  
I am an EE/ ME/ JD leading a passionate group of Entrepreneurs,- Inventors, Startups, VCs,... more

**Brian**  
Interested in alternate modes of transportation.

Speaker Andrew Boardman:

Andrew's skills include competitive analysis, software and systems architecture design, manager mentoring, product and project management, due diligence for financial deals, term sheet evaluation, and software development.

Andrew has co-founded multiple startup companies in the computer and service industry and has been TRACKING these automotive startups for years. Come hear his UNIQUE perspective on how/ why 3 TRANSPORT Startups had radically different outcomes.

Creating Opportunities for Sustainability and Clean Technologies

Restore the Delta will be joining in to represent the Bay-Delta! Will you?

Federal science is what protects the San Francisco Bay-Delta! It is what we use in our daily messaging to reveal the injustices and over pumping by special interests. **Please plan to join us, bring signs to represent the SF Bay-Delta communities and our support for scientists. Scroll down for printable 11 x 17 inch marching signs or to get ideas for your own positive sign!**

### Technical Support /Customer Service Rep

#### EcoReco e-Scooter - Campbell, CA

EcoReco is looking for a highly motivated individual from the SF south bay to join our startup on our journey to become the leading brand in the green energy and personal transportation space.

We are looking for a self-motivated, detail-oriented, and mechanically-inclined technician assistant to join our core team to help us handle warranty repairs, customer tech support, general workspace maintenance and to assist with daily business operations such as inventory management.

We are the company behind the most practical and economical last mile solution on the market. Our product, EcoReco scooter, is an eco-friendly, efficient, portable, and smart electric vehicle, designed for an adult and everyday urban use. Check out <http://ecorecoscooter.com>

As our user base and community grows at high speeds, we need to expand our core team to better support our riders and scale up our business operations.

You would be working in a start-up environment, and we provide training and plenty of opportunities to grow and explore.

If you think a personal electric vehicle that works well with both public transit and a car is the future of transportation please send us your resumes.

Extra points if you have experience working in retail or bike shop management.

We look forward to hearing from you.
