Self-Introductions

EcoGreen Group of Silicon Valley

Creating Opportunities for Sustainability and Clean Technologies

Mission

EcoGreen Group creates professional and entrepreneurial opportunities in sustainability and clean technologies through education, professional development, industry collaboration, and networking.

The EcoGreen Group fulfills this mission through our

- online blog,
- social media,
- collaborative workspaces,
- **volunteer opportunities** (see Rod)
- member projects,
- weekly and monthly meetings,
- and speaker events on specific sustainability topics.

EcoGreen Group of Silicon Valley
Creating Opportunities for Sustainability and Clean Technologies

Event

Special Screening of Documentary Film **'Tomorrow'**

Registration details coming soon.

Date: 7:00 p.m., Monday, April 17

Cubberley Auditorium, 485 Lasuen Mall, Stanford,
CA 94305 **There is free General Admission**

The film focuses on imparting not just valuable information about grassroots efforts in local communities to make environmental change a reality but on inspiring others with a hopeful call to action for a better tomorrow. For more information about the film, visit: www.tomorrow-documentary.com Following the screening, there will be a panel discussion with the filmmaker and environmental research experts.

Event

2017 AARP Innovation@50+ LivePitch

Computer Museum, Mountain View, CA
April 12 and 13, 2017

Programming will include sessions with caregiving tech and fintech experts from industry, investment and AARP, focusing on technology innovations to advance the health and financial needs of those over 50. The discussions offer attendees the opportunity to hear from and engage with entrepreneurs and investors, as well as business leaders and influencers.

The second half of each day features pitch competitions with ten caregiving health technology and ten financial technology companies. Each company will present their business focus on stage in rapid 3 minute presentations to a panel of industry expert judges, most of whom are venture capitalists and angel investors focused on caregiving or financial tech solutions, especially for the 50+ population.
