Creating Opportunities for Sustainability and Clean Technologies

Self-Introductions

EcoGreen Group of Silicon Valley

Creating Opportunities for Sustainability and Clean Technologies

Mission

EcoGreen Group creates professional and entrepreneurial opportunities in sustainability and clean technologies through education, professional development, industry collaboration, and networking.

The EcoGreen Group fulfills this mission through our

- online blog,
- social media,
- collaborative workspaces,
- volunteer opportunities,
- member projects,
- weekly and monthly meetings,
- and speaker events on specific sustainability topics.

Webcasts

[Calculating the Emissions Impact of Recycling](#)

August 9, 2016

In 2009 the EPA introduced the concept of Sustainable Materials Management (SMM) which looks at the entire lifecycle of goods and products, not just end-of-life materials management.

[Register](#)

[Setting Goals: Have We Reached the Limits of Recycling?](#)

August 16, 2016

This second of our two-part webcast series on calculating the environmental impacts of recycling and waste disposal ([see Part 1 here](#)), looks at how reg

[Next-Generation Solar Strategy for Commercial Operations](#)

August 30, 2016

As businesses rely more on energy-intensive operations, including data centers and manufacturing facilities, solar is steadily gaining traction as a choice for powering large commercial and industrial facilities.
